

Slow down, baby, slow down, baby  
It's all love, I got enough to go 'round, baby  
And I'll be there for you if it go down, baby  
I'll be your life saver, you'll never drown, baby  
Yo, this for my queens around the globe  
How many girls going bad? You'll never know, yeah, yeah  
This for my queens around the globe  
How many girls going bad? You'll never know

Uh, hate to be the one to admit it, but I'm the one to live without flaw  
Disrespected women, tryna get 'em outta they draws  
Instead of bringin' 'em down, we should be bringin' them all  
I hold my fist to the sky and pray we keepin' buildin' up  
This the war that could touch the mothers, sisters and daughters  
I got one of my own, so I gotta keep it in order  
I gotta put on for Bella until I'm restin' in memory  
Be a better father to my daughter, know she depend on me  
Don't get it confused, this ain't about black or white  
Red or blue, as men, we should know how to move  
Protect our women, don't lie, cheat and stress our women  
I love my women, this ain't the end, it's just beginnin'

All them times when I'm cold and I need you  
Never turn me down when I need you  
Always around when I need you  
That's why I love you  
Woman, we all came from a woman  
So be as strong as you could be  
Be as strong as you could be, yeah

Slow down, baby, slow down, baby  
It's all love, I got enough to go 'round, baby  
And I'll be there for you if it go down, baby  
I'll be your life saver, you'll never drown, baby

My foolish ways I was young and dumb  
I had to smarten up, I knew that this day would come  
Embrace the fact that my mama brought me in this world  
And for that, I made a promise, I'll give her the world  
Get well Kennedy  
I take full responsibility for you gettin' hurt, it wasn't supposed to be  
Yeah, it would hurt if it was someone that was close to me  
Sometimes I let my feelings get the most of me  
Sometimes it be those demons that's approachin' me  
That made me had those reckless ways  
Went through my trials and tribulations, I got out the maze  
Hope for power for our women, bow our heads and pray

All them times when I'm cold and I need you  
Never turn me down when I need you  
Always around when I need you  
That's why I love you  
Woman, we all came from a woman

So be as strong as you could be  
Be as strong as you could be, yeah

Slow down, baby, slow down, baby
