

# Unforgettable

## Empire Cast

I feel the heat coming through from your eyes  
They keep staring at me so deep, what you trying to do?  
If it were up to me, you would be mine  
We play the game everytime  
When nobody says what they wanting to say  
But I'm thinking that maybe it's time for a change for you and I

So pull me, pull me closer  
I wanna, wanna know ya  
Love me 'til it's over  
Forget about the pressure  
Stay with me right by my side  
And we'll make it, we'll make tonight  
Unforgettable  
Hey, let's make tonight unforgettable  
You know I wanted this for so long  
Let's make tonight unforgettable  
Unforgettable

Don't know if it's right or kind of insane  
For you to be here right now  
I can't blame you for being so bad  
I'm letting myself feel the high  
Cause after tonight, I don't know the next time I'll be seeing you  
I'm making the most of the right  
I don't wanna forget, no

So pull me, pull me closer  
I wanna, wanna know ya  
Love me 'til it's over  
Forget about the pressure  
Stay with me right by my side  
And we'll make it, we'll make tonight  
Unforgettable  
Hey, let's make tonight unforgettable  
You know I wanted this for so long  
Let's make tonight unforgettable
