

# We've Got Time

Empire Cast

We got time on our side  
We don't need to rush anything tonight  
We got time we got time  
We don't need to rush anything tonight

I'll just leave these cards on the table  
Just so we can be in the same boat  
I'll put some respect right between your legs  
You got a mind that I wanna feel  
I wanna know how it makes you feel

Can we just love the pace  
While the whole worlds running so afraid to wait

We got time on our side  
We don't need to rush anything tonight  
We got time we got time  
We don't need to rush anything tonight

Its more than enough for me  
I love making love to your mind  
And we can't spend it all in one night

But we got time on our side  
We don't need to rush anything tonight

You're a book full of pages  
I get lost in em daily  
I got a good imagination ain't gotta pretend  
I'll put some respect right between your legs  
You got a mind that I wanna feel  
I wanna know how it makes you feel

Can we just love the pace  
While the whole worlds running so afraid to wait

We got time on our side  
We don't need to rush anything tonight  
We got time we got time  
We don't need to rush anything tonight

Its more than enough for me  
I love making love to your mind  
And we can't spend it all in one night  
But we got time on our side  
We don't to rush anything tonight

Can we just love the pace  
While the whole worlds running so afraid to wait
