

A E I O you should look inside
You should look inside of yourself

How far we go to find our home
When the people we love
Are the ones that we know
Emerald, silver and gold

Too young to know we lose our glow
It can really go
I wish it ain't so
Come bring me on home

A E I O you should look inside
You should look inside of yourself

How come it's so
Till we get to know
How good life can go
We lose the control
It's too late to say no

How hard we go in Tokyo
Don't sell your one soul
True faith meets your woes
True faith in the goal

A E I O you should look inside
You should look inside of yourself

A E I O you should look inside
You should look inside of yourself

A E I O you should look inside
You should look inside of yourself

You should look inside
You should look inside
You should look inside of yourself
