

## Music On The Radio

Empire of the Sun

I wish that I could change the weather  
Enjoy the sound of silence in my car  
There's things I just can't hate forever  
I found a crowded place to fall apart

You can blame it on N E R D  
You can blame it on a tangerine dream  
You can blame it on a space man  
Blame it on snacky, blame it on dexy

I don't like the music on the radio  
They don't play my song  
I don't like the music on the radio  
But I sing along

I wish that I could change the weather  
Enjoy the sound of silence in my car  
There's things I just can't hate forever  
I found a crowded place to fall apart

You can blame it on the neon trees  
You can blame it on the love and rockets  
You can blame it on a Ladytron  
Blame it on snacky, blame it on dexy

I don't like the music on the radio  
They don't play my song  
I don't like the music on the radio  
But I sing along

I don't like the music on the radio  
They don't play my song  
I don't like the music on the radio  
But I sing along

I don't like the music on the radio  
They don't play my song  
I don't like the music on the radio  
But I sing along

I don't like the music on the radio  
They don't play my song  
I don't like the music on the radio  
But I sing along
