

On Our Way Home

Empire of the Sun

True hearts rely on never getting lost in the night
There's a million lights that lead us on the way
The more we follow them we fall in love
So get us home

Say what you mean
Do what you will
Brother you'll reach inside yourself tonight

On this is where we
Oh this is where we
Oh this is where we begin
On our way home

True hearts will wipe the tears right from your eyes
There should be no more without the pain
The former things have passed away beyond
So get us home

Say what you mean
Do what you will
Brother you'll reach inside yourself tonight

On this is where we
Oh this is where we
Oh this is where we begin
On the way home
On this is where we
Oh this is where we
Oh this is where we begin
On the way home

On the way home, way home
On the way home, way home
On the way home
On the way home, way home
On the way
On the way home, way home

On this is where we
Oh this is where we
Oh this is where we begin
On the way home
On this is where we
Oh this is where we
Oh this is where we begin
On the way home

On the way home, way home
On the way home, way home
On the way home
On the way home, way home
On the way
On the way home, way home
