

Me and my rhythm
Use it in my day
Individual stance
Underground heaven
Urban duck and cover
Mama's at the door
Shaking cans of soda
Forty on the floor

All around the world, boys and girls are falling in love
Revolve around the world as we revolve around the sun

Moving in the parlour
Banging in the stalls
Velvet's in resistance
A hundred times or more
Master wears the serpent
Serpent wears the slave
Synergy discover
Listen to the rave

All around the world, boys and girls are falling in love
Revolve around the world as we revolve around the sun

Motion is your mirror
Paint it with your brush
Sink or swim my brother
Saviour's etched as one
Plug it in with butter
Dark robot love
Resonate in colour
Fever is the flood

Look out people
'Cause there's a better scene to see
Gotta give up your sensitivity
And follow the energy
We are the living energy
We are always giving our energy
Give me some of that emotional sensitivity

All around the world, boys and girls are falling in love
Revolve around the world as we revolve around the sun
All around the world, boys and girls are falling in love
Revolve around the world as we revolve around the sun
