

The Feeling You Get

Empire of the Sun

Fine to be here in our world
When everyone's got other places to be
So long singing songs
If only we met before
But you know what I do
It's the feeling you get
The feeling you get

Jokes aside
The bigger the brighter
When I cry everything's lighter
It's the feeling you get, the feeling you get
(Three, two, one)

Lovers get lost in the dreams in their head
We won't stay here and we won't be back again
Fallin' in love, we're fallin' in love
It's the feeling, feeling you get

Lovers get lost in the dreams in their head
We won't stay here and we won't be back again
Fallin' in love, we're fallin' in love
It's the feeling, feeling you get

Fine line I cross every time
It never goes away
It's my own careless ways
It's the feeling you get
The feeling you get
In some odd way
It's the game that I play
As I look for yesterday
It just turns inside my soul
It's the feeling you get
The feeling you get

Lovers get lost in the dreams in their head
We won't stay here and we won't be back again
Fallin' in love, we're fallin' in love
It's the feeling, feeling you get

Lovers get lost in the dreams in their head
We won't stay here and we won't be back again
Fallin' in love, we're fallin' in love
It's the feeling, feeling you get

Feeling something, feeling something
Feeling it now, feeling something
Falling in love, in love
Falling in love with the feeling you get

(One, two, three, four)

Lovers get lost in the dreams in their head
We won't stay here and we won't be back again
Fallin' in love, we're fallin' in love
It's the feeling, feeling you get

Lovers get lost in the dreams in their head
We won't stay here and we won't be back again
Fallin' in love, we're fallin' in love
It's the feeling, feeling you get

Lovers get lost in the dreams in their head
We won't stay here and we won't be back again
Fallin' in love, we're fallin' in love
It's the feeling, feeling you get
