

Strangers

Empires

Can't tell us apart. When we're rollin' through the dark.
Are you with me? Are you with me?
Strangers in your head. Falling out onto the bed.
Are you with me? Are you with me?

I want you bad, I really want you bad, no matter who you've had
.
I'm just your ghost, you can have us both, I really want you bad.

Oh the hell with all your fame and the reason why you came.
Are you with me? Are you with me?
Think of someone else when our heads begin to swell.
Are you with me? Are you with me?

I want you bad, I really want you bad, no matter who you've had
.
I'm just your ghost, you can have us both, I really want you bad.
I want you bad, I really want you bad, no matter who you've had
.
I'm just your ghost, you can have us both, I really want you bad.

I want you bad, I really want you bad, no matter who you've had
.
I'm just your ghost, you can have us both, I really want you bad.
