

# Hold Me Like Water

Empress Of

Got my hair pulled back tight  
Might let you spend the night  
Might let you be someone  
Take me 'till we're done  
I can't decide what type of girl I like  
What type of girl to be  
Have all of me  
I can feel my body changing  
We're two figures rearranging  
Nondescript inside a painting

How can I know, know you better  
Much better now  
Hold me closer  
Hold me down  
Hold me like water  
Hold my taste in your mouth  
There's something about being this, this high in the air  
That makes you feel scared

The way you gather stars  
Just looking out the car  
Teach me something right  
I wanna try it  
I can feel my body changing

How can I know, know you better  
Much better now  
Hold me closer  
Hold me down  
Hold me like water  
Hold my taste in your mouth  
There's something about being this, this high in the air  
That makes you feel scared

Hold me like water  
Hold my taste in your mouth  
Hold me like water  
Hold my taste in your mouth  
Hold me like water  
Hold me like water  
Hold me like water  
Hold me like water  
Hold me like water  
Hold me like water
