

Save Me

Empress Of

Don't follow my lead
You always beat me at your own time
Don't ask what I need
I'm on my knees having a good time
You always know what's right with me
Before I say it's right
If you need me baby take me in the back of the room till light

Don't follow my lead
Don't ask what I need
You always know the way
If you need me baby take me in the back of the room for the night

I'll be waiting here baby
In the back of the room I want you to save me
I need a baby not someone to play me
In the back of the room I want you to save me
I want you to save me

Climb me take me
I know you need me now
Take this heart beat
You know I need this now
I've been waiting
Take me I need this now
If you need me baby take me in the back of the room for the night

I'll be waiting here baby
In the back of the room I want you to save me
I need a baby not someone to play me
In the back of the room I want you to save me
I want you to save me

I'll be waiting here baby
In the back of the room I want you to save me
I need a baby not someone to play me
In the back of the room I want you to save me
I want you to save me

Save me save me
Save me save me
You always know the way
If you need me baby take me in the back of the room for the night
I'll be waiting here baby
In the back of the room I want you to save me
I need a baby not someone to play me
In the back of the room I want you to save me
I want you to save me

I'll be waiting here baby
In the back of the room I want you to save me
I need a baby not someone to play me
In the back of the room I want you to save me
I want you to save me
