# I Found You

**Empty Tremor**

The night is falling
On my small town
But I still can hear
The children playing outside

And I remember all those years
When life was easier
Running faster than the wind
Away from my fears

And I remember all these years
When that feeling was gone
But now I see the light again
Cause I found you

Anyone can tell what's right
Anyone can tell what's wrong
I just wonder why
It's so hard to find
The real peace

When I look back I still see
So much sadness inside of me
But now I just don't care
Cause finally I found you

And I remember all those years
When life was easier
Running faster than the wind
Away from my fears

And I remember all these years
When that feeling was gone
But now I see the light again

Cause I found you
Now I can run free
You gave me a brand new life
Now I can fly high
Now life has a meaning to me
It's like an open door
And the reason is easy to see
What I'm living for

Cause I found you
My life has started to move again
Cause I found you
You gave me a reason to believe
Cause I found you
I have another life to live
Another chance for me to
Stay alive cause now I found
You!

I'm not afraid anymore
I found you
I found you

I found you

Now I just don't care
I found you
