

The Eyes of Universe

Empty Tremor

A distant voice is praying
Words seem so lonely and sad
A child is slowly fading
Inside his mother's hands
Life seems to be so strong and hard to live
Remembering tales of the past and
How sweet it used to be
Tears growing faster on the scene
But something's going on
A warm feeling carries the child away
Away from human fate
Feels like the same love of a mother's kiss
A child is getting closer to eternity
Again
The eyes of universe

Saved a child again
The eyes of universe
Saved a soul
Saved a soul
Saved a soul
Eyes of universe still riding
Lighting stars
Old friends of mine
Eyes of universe still riding
Lighting stars
Old friends of mine
Fight for your happiness now
'cause it's only a tale !
Eyes of universe still bleeding
Darkness stars
Old friends of mine
Eyes of universe still bleeding
Darkness stars
Old friends of mine
