

Still here

Empyr

You tracked me down, like disease
You like the smell of my fear
When I sink

You saw me drunk, too scared to swim
You wished I could disappear
Under the waves
But...

I'm still here / Into deep
Standing on my knees
Bittersweet

Now it's your turn, to feel the fear
Behind you in the mirror
Can you feel

You can't cross the line (no you can't)
You can't change the past, you can't
You can't cross the line (no you can't)
You can't change the past, you can't

I'm still here / Into deep
Bittersweet

I'm still here / Into deep
Standing on my knees
Bittersweet

I'm still here (6x)
