

## Domino

Empyrios

Call - for help - unfast  
The lightbulb - cower down low  
You - know how - fly out - hate  
Propelled - chasing - fury  
Molestation - fail - inhale - dumb shout

Without forewarning  
Craving salvation

Face the rising domination  
You can't deny  
It's pushing on you and you alone  
As time goes by

[Manuel Guerrieri]:  
Close - your eyes - you feel  
The pressure - swelling your throat  
Dazed - amazed - worn out  
Break - the dam - flood out  
All your - desperation  
Stay - away - far out

With no forewarning  
And no foundation, you still

Face the rising domination  
You can't deny  
A flick at a domino well known  
Recurring damnation  
Time to face this domination  
I'm wondering why, I'm reaching for you  
The resolution to save my life

Face the rising domination  
You can't deny  
It's pushing on you  
And you alone  
Incoming pollution  
Face the rising domination  
You're living a lie, it's all up to you  
A self privation, for you might die
