

## Square One

Empyrios

Look beyond  
The creed and let me  
Return the lies you stole  
You've been struck deadly  
Now you've got to know

Look inside the crib and tell me  
Is that a hopeless soul?  
He won't lose his grip to let go  
Human forces defeated

All your beliefs are hollow  
Meaningless  
They're meant to let you down  
And right back to square one

I won't let you blame  
It on yourself  
To be a lonely child  
I'm on my way to ease your soul  
To come and let you go

[Guillaume Bideau:]  
Help me out  
They're here to get me, 'cause they know  
You're not alone  
We're twisting inside a black hole  
Human forces defeated

I won't let you blame  
Blame it on yourself  
To be a lonely child

I won't let you blame  
It on yourself  
To be a lonely child

I won't ever blame it on myself  
You're deep inside my mind  
It's just one more way  
To ease my soul  
I'll never let you go
