One shot to the face, take you straight to lala land  
'Roll Up' is a hit and I wasn't dissing Jabba Man,  
Just a simple co-sign I hope that you understand  
I love my parents for giving me life, if I make Ten Mill, I'm givin'

Don't ask me nothing about the shit that I mix with the Sprite  
Didn't get maths, numbers on the board  
And I'm getting it right, bet Ima get it tonight  
Now that I'm winning it's nice, I cost a different price  
You prolly do it for likes, I tried to ask for advice  
Just a young put-on, they told me "no" like twice

Look at how every single label tryna sign him  
Aye, Who came through and had you turning up in traffic?  
Freestyled the song, didn't even have ad-libs  
That's the same song that me chilling where the cash is

After so much of hard work, trying to survive in the streets of Jobur

Working hard, but not getting the acknowledgement you deserve  
Getting double-crossed, sleeping on floors  
You know this is really what I always wanted to do my whole life  
I did nothing but this...  
So here I am, I'd like you to get to know me, where I come from, how  
I got here
