

# All Night

Emtee

Yeah  
Ambitious Baby

As soon as the sun goes down  
And the lights go on (and the lights go on)  
As soon as the weekend approaches  
We working, we party  
We do it all night [x2]  
We be going all night [x6]

You now rocking with the best  
I ain't tryna flex, squad on deck  
Rolling on a jet, I don't ever rest  
They show me respect, sold out on the shelf  
The studio the kitchen so I whip it like a chef  
Life so bliss, I don't know what's next  
I'll be in the club if they pay me  
Then I'm linking up with Sjava ekseni  
Hit the ignition I'm feleing like R Kelly  
Nawe uyazi yamadoda ayipheli  
Siyajaiva siyaspana 'til ekseni  
I just hope my body don't fail me now

As soon as the sun goes down  
And the lights go on (and the lights go on)  
As soon as the weekend approaches  
We working, we party  
We do it all night [x2]  
We be going all night [x6]

We don't take no vacation  
There's no celebrating  
'Til we all make it  
We don't take no vacation  
There's no celebrating  
'Til we all make it  
Me I be grind for me people them  
Me I feel get up try and find what I can't find  
Still I'mma shine for me people them  
It could be day or nigh time  
Still I'mma get mine
