

Me And You

Emtee

This could've been me and you
Waking up to this ocean view
What am I supposed to do
I do what I've got to do
Got to get my money baby
When everything seemed alright
Used to call me when you wanted baby
And now you don't even say "Hi"

It's funny how you put it on me
Really
You self you know how much I really want it
It's never been about the money
You feel me
Because I tried, I tried you know I tried
For how long a girl got to hold on
You know I have been strong for too long
Kicking it with you you all day long
Kill all my show, kill all my show baby
You know say I they craze for you
You know say I they craze for you, yeah
I could try everyday just to give you something new

This could've been me and you
Waking up to this ocean view
What am I supposed to do
I do what I've got to do
Got to get my money baby
When everything seemed alright
Used to call me when you wanted baby
And now you don't even say "Hi"

You've got me over-thinking
I had you cooking in the kitchen
I'd tell you anything and you would listen
And now you're looking at me differently
Mina nawe be is smokola
Be ung'thanda Noma besokola
Started going to clubs with the top ballers
Why you mad when I'm performing across borders?
I hope he's treating you right
Even though he came through like a thief in the night
It's okay, it's alright
I'm moving on by in the north-side
My life too lit, I'm on new shit
You and your boyfriend looking all stupid
You planning on having 2 kids
Zap sign, index, that's deuces

This could've been me and you
Waking up to this ocean view
What am I supposed to do
I do what I've got to do
Got to get my money baby
When everything seemed alright
Used to call me when you wanted baby
And now you don't even say "Hi"

Ngabe yimi nawe
Sibukele ubuhle bolwandle
Angisazi ngthini manje
No, I don't know

This could've been me and you
Waking up to this ocean view
What am I supposed to do
I do what I've got to do
Got to get my money baby
When everything seemed alright
Used to call me when you wanted baby
And now you don't even say "Hi"
