

I feel like I can just take off and just go away  
I feel like this world isn't made for people like me  
Please let me live my life  
Please don't come my way  
Please let me live my life  
Please let me live my life

I don't think I would have did it on my own  
Had the landlord blowing on my phone  
My nigga I ain't had a home  
But my partner dem told me I am goals  
Never thought that I would have kill it at the Dome  
My first vid? Scrooge shot it with a drone  
No man is an island and you know  
Could have never did it on my own  
I be going hotter than a stove  
Best jets in the land when we smoke  
Told my nigga don't quit work  
Told my mama we gon' make this shit work  
And that bitch that didn't love me wanna twerk  
Whole team be the wave y'all surf  
Hit the restaurant and just order dessert  
Ain't talking waffles bitch you know I'm 'bout to serve

I feel like I can just take off and just go away  
I feel like this world isn't made for people like me  
Please let me live my life  
Please don't come my way  
Please let me live my life  
Please let me live my life

Mama told me I'm a winner  
Dankie mdali ngisaphila  
Where y'all where was at when I was thinner?  
When I couldn't take my girl out for no dinner?  
Man it was problem after problem bekunyiwa  
I was trapping at the stu' namajita  
God got me  
Pops got me  
Not forgetting amajita daar ekasi  
Pull up 50 deep, you nahmean?  
Akekho omunye opheth' istyle sami  
Goons in position you can never drive-by me  
I'm a star my G chela la asidakwi  
Catch me on the fast lane with a Mary Jane  
Ntwana I'm a mogul ngicela ninghloniphen'  
They don't understand it or even comprehend  
It's just me myself and I and these hella chains

I feel like I can just take off and just go away  
I feel like this world isn't made for people like me  
Please let me live my life  
Please don't come my way  
Please let me live my life  
Please let me live my life
