

# No Matter What

Emtee

Ey  
I put my faith in God  
This life is way too hard  
I'm back so I gotta go hard  
Yea, no matter what

Even if they hate imma stay on my grind  
No matter what  
No matter what

Even if they hate imma stay on my grind  
No matter what  
No matter what

I put my faith in God  
I put my trust in God  
I put my hope in God  
It's been way too long

The road has been rough  
The road has been tough  
Stay safe my brother  
It's a cold world

I been hustling  
And I been struggling  
I been going hard  
It's a crazy world

Everyday I pray  
Baba bless my way  
I just wanna say  
Thank you for this day

I put my faith in God  
This life is way too hard  
I'm back so I gotta go hard  
Yea, no matter what

Even if they hate imma stay on my grind  
No matter what  
No matter what

Even if they hate imma stay on my grind  
No matter what  
No matter what

Even if they hate no imma stay up on my grind  
Niggaiz can't relate waited for this so many times  
They don't know the story they can't see behind this glance  
To God be the glory he the one who changed my life  
I'm on to bigger things  
Can't deal with the ones I see don't feel the same  
I get it for my family I been the man  
We just still young and with no plan now I got bigger plans

I put my faith in God

This life is way too hard  
I'm back so I gotta go hard  
Yea, no matter what

Even if they hate imma stay on my grind  
No matter what  
No matter what

Even if they hate imma stay on my grind  
No matter what  
No matter what
