

# WAKE UP

Emtee

Baby don't go too far  
Yeah I'm quite needy  
Don't go too long  
So many things to get out the way  
So much to do so little to say  
Baby it's hard to sleep  
Whenever you're not with me  
So many things to get out the way  
So much to do so little to say

I might not say much  
I'm getting paper  
They say I'm this they say I'm that  
But I don't play much (but I don't play much)  
Don't wanna lose you to nobody or just break up (ay)  
I was sleeping on you gotta wake up (gotta wake up)

I'm ready if you ready (hmm)  
Put another in your belly  
I'm addicted to the fetti  
Ima hustle if you let me (ahhh)  
I'm always on the road widit' (yeah)  
Family members say I don't visit (ay)  
I be in my zone really  
I feel like Percy Miller got no limit  
I gotta' treat you better I'm not perfect (yeah)  
No need to force if it ain't working  
I be damned if you fuck another person  
They don't wish us well that's for certain

Ayy  
You got my heart baby  
Ayy yeah  
Just play your part baby  
Yeah

Baby don't go too far
