

Love U Crazy

En Vogue

It's just like this
I knew it from the first time I kissed your lips
I can't resist, the passion was so strong
As I looked into your eyes
I became a little weak and I was mesmerized
I lost all track of time

Must be something to it
I don't wanna loose it
I don't wanna loose it
Must be something to it
Love U Crazy (Crazy, Crazy)

I've got crazy love for you
I adore you, always wanting you
Loosing sleep over you
Guess I truly do love you crazy
(Crazy, crazy)
I've got crazy love for you

It must be fate
I never would of met you if I wasn't late
Oh, my mistake for hitting your new car
Somethin' 'bout you took me in
Somethin' 'bout that dark brown skin
Somethin' 'bout that sexy smile
Somethin' 'bout you drove me wild
And now I'm crazy
They're goin' to put me away

Must be something to it
I don't wanna loose it
I don't wanna loose it
Must be something to it
Love U Crazy (Crazy, Crazy)

As I can't believe this world without the sun
I can't believe my heart without your love
Those who don't understand
Haven't had anyone to win their heart
Like you've done to me thus far

So what part of the game is this
I'm suppose to be real smooth
Instead I stumblin' over words and ish
You got me nervous, shakin', makin' my hands sweaty
Nobody's ever had this effect on sweets Marzette
I found myself doing things I'd never do
Lately I been ditchin' all my friends
And dissin' other men for you
All I think about is you
And I don't like it one bit
Somehow you crashed into my life
And now I'm crazy lovesick
Yo

Must be something to it

I don't wanna loose it
I don't wanna loose it
Must be something to it
Love U Crazy (Crazy, Crazy)

Must be something to it
I don't wanna loose it
I don't wanna loose it
Must be something to it
Love U Crazy (Crazy, Crazy)

I'm in love with you
And my love is true
No one else will do
I got crazy love for you

I'm in love with you
And my love is true
No one else will do
I got crazy love for you
