

Million Different Ways

En Vogue

I hold you close right to my heart
Plus from the past that sets you apart
From all the rest, you are the best
Come here, come on, give me a kiss

Remember all the fun times we shared
Anticipating good times ahead
Spending time with you, it's true
There's nothing that I'd rather do

There's a million different ways to say I love you
There's a million different ways to say I care for you
There's a million ways to say I need you too
There's a million different ways
A Million different ways to say...

I like the way you satisfy me
I like the way you a[^]lectrify me
You can't ignore, I can't explain
I know we'll learn from every change

You make me laugh, You make me see me
Falling in love with you, It's a dream
I close me eyes, You're standing there
With a smile that says you care

Dododoodododoo...

Happy just to be here with you
I don't know what I would do
Without your love, without a clue
You bring out the best, it's true

I can see you understand me
My best friend, my cup of tea
Don't ever change the way you are
We fit just like a hand in

I love you, baby
