

# Make You so Unreal

Enbound

Freezing, oh I'm so cold inside my heart  
Feed me, yes feed me with your lies

I am awake but restless, can't escape  
Can't help that you're reducing my mind's sound

Once again I'm running through my life, can't hear the words you say  
Words are lies, let the heart decide what to think and what to do

I damned the seal, unleashed my needs  
Something I have locked, inside of me  
The final call is to break it all  
Oh I make you so unreal

Once again I'm running through my life, can't hear the words you say  
Words are lies, let the heart decide what to think and what to do

I've tried so hard... I've tried so hard...  
I make it all go away

I damned the seal, unleashed my needs

I damned the seal, unleashed my needs  
Something I have locked, inside of me  
The final call is to break it all  
Oh I make you so unreal
