

# Don't Stop Killing Me

End of Green

I breathe the air that you leave me  
disease  
i teach you everything  
i need, oh i need everything  
so don't stop killing me  
thrilling me  
just keep on planting your hate on me  
i bleed  
the blood you leave me  
decease,  
i teach you everything  
i need, oh i need nothingness  
so don't stop this killing me  
thrilling me  
just keep on planting your hate on me  
i carry all of yours through landscapes  
seems like the scenes will never end  
we're walking in line miles from nowhere  
i carry your lies, you should smile little thing  
watch your world going down at the end of the spring  
i carry our lies  
i carry our hate  
it's better you leave than take your last breath
