

# downfall

End of Green

Fallen down, will now I die?  
I'm bothering to eternal skies ... full of memories  
I remember all the time in which my exceptions for a better life  
seeming die tonight  
It's my last wish then I will forever be  
It's my last love then I can be forever free  
The way I walk is cold and deep I cannot lying come put your hands  
out in the sky  
Show me how you love listen to me god help me please and make me  
free

Then I'm falling down falling down falling down falling down deep  
in my mind  
Then I'm falling down falling down falling down falling down in  
to my mind  
It's my last breathe then I will forever be  
It's my last love then I can be forever free  
The way I walk is cold and deep I cannot lying come put your hands  
out in the sky  
Show me how you love listen to me god help me please and make me  
free

Falling down, falling down ...
