

## Necessary Death

END

Guided by the solitary light  
Of your paradise in flames  
To eradicate all living things in an unbiased genocide  
No greater opportunity  
To do away with the righteous hearts  
Beating in sequence  
With a false crusade

Adorned in a crown of thorns  
But I see you for what you really are: a filthy fucking pawn  
A useless fucking figurehead  
Immune to the contractions of a serpent's poison tongue  
No saviour could save me

No martyrs  
No casualties  
Only necessary death  
To facilitate the process of natural selection

With one final act of coercion  
I will convince the doomed to rise  
And ignite the final spark  
That will engulf and cloak mankind  
Redemption pulled from underneath their feet  
No saviour could save me

No martyrs  
No casualties  
Only necessary death  
To facilitate the process of natural selection

Necessary death  
No saviour could save me  
From a necessary death  
No saviour could save me  
From a necessary death
