

Survived By Nothing

END

I refuse
I refuse to identify with shit
Mankind is an unmarked grave
Regression looming overhead like birds of prey
And I'm a walking carcass

Take from me all that is essential for preservation
Or leave me to wither away in peace
I am not responsible for a lack of impression
It's not my fault that all I'll leave behind is blood
I'll leave behind is blood

Survived by nothing
Death casts a shadow over me
But not against my will

If humanity is my cross to bear
I will drive nails through my feet
Until my halo resembles a crosshair

Survived by nothing
(Survived by nothing)
(Survived by nothing)
Death casts a shadow over me
Survived by nothing
(Survived by nothing)
(Survived by nothing)
Death casts a shadow over me
