

## Twice Devoured Kill

END

Make certain you're suffering  
And suffocate from the scent of decomposing prey  
Reopen formerly depleted veins  
Buried beneath beds of nails  
On which we slept

Scars once wept  
Twice devoured kill  
Scars once wept  
Twice devoured kill

Not enough to quench your thirst  
More than was deserved  
An overflowing mouth and still you beg  
Still you beg

Reduced to protruding sharpened bones  
Awaiting the embrace of famished rats  
Not enough to quench your thirst  
More than was deserved  
An overflowing mouth and still you beg

Scars once wept  
Twice devoured kill  
Bred for bloodletting

Bred for bloodletting  
Bred for bloodletting

An overflowing mouth, still you beg  
Still you beg  
Still you beg

I fed you with my lacerated wrist  
Still you beg  
I fed you with my lacerated wrist  
Still you beg

Distributing fresh dirt above our grave unearthed  
Denouncing lust, yet buried side by side  
Distributing fresh dirt above our grave unearthed  
Denouncing lust, yet buried side by side
