

# Baby Baby Baby

Endeverafter

Your lips they glisten cherry red  
And I wanna taste it all  
Your hips are shaking me to death  
The way you shake it

But don't stop now, c'mon honey  
Tell me how, how do you want it?  
Don't stop now 'cause I need it  
Don't stop and take it all away

Baby baby baby  
C'mon and show me what you got  
Baby baby baby  
C'mon and show me what you got

Don't stop, honey, right or wrong  
And I'll drive you crazy, all night long

Your lips they glisten soaking wet  
And I wanna take it all  
Your sweet skin all over the bed  
I wanna penetrate it

But don't stop now, c'mon honey  
Tell me how, how do you want it?  
Don't stop now 'cause I need it  
Don't stop and take it all away

Baby baby baby  
C'mon and show me what you got  
Baby baby baby  
C'mon and show me what you got

Don't stop, honey, right or wrong  
And I'll drive you crazy, all night long

Tell me just what turns you on  
What turns you on  
What turns you on

Baby baby baby  
C'mon and show me what you got  
Baby baby baby  
C'mon and show me what you got

Don't stop, honey, right or wrong  
And I'll drive you crazy, all night long

Tell me just what turns you on  
What turns you on  
What turns you on

C'mon and take it all away
