Intermolecular structures  
The cloning of lovers  
Secrets and the lies that stem within  
The falling of Hitler  
The infamous killer  
Take my soul and rape and #### me

Take it away  
Don't wait tomorrow  
Open your eyes and let me in

Stop all this hatred that stands before me  
Take what you want me to take inside you  
Break what you want me to break before me  
Take what you want  
Leave me empty

Take it away  
Don't wait tomorrow  
Open your eyes and let me in

So you feel empty  
So you feel...  
Here and now  
To let me in  
Here and now  
Someone help me

Take it away  
Don't wait tomorrow  
Open your eyes and let me in

Let me in
