

Money Makes The World Go Round

Enemy You

For every flag and broken street
There is one thing behind everything
It deals the power and prestige
Money makes our little world go round

The hungry starve and gluttons feed
Supporting it each time we buy from it
Created by and creating greed

Money makes our little world go round
(The more you need the less you get)
Money makes our little world go round
(Round and round, The world goes round, yeah)
Money makes the f**king world go round
