

The Only One

Enemy You

I'm tired
I'm waiting
The neon pulsating
Can anybody hear me
Cause this life is draining

It's living
And breathing
Cold concrete
It's seething
Built on blood sweat and bone
This place is defeating

They've caused that bright light pound
So many faces in the crowd
Twin towers break the sky
The concrete roads, dreams will die

Tell me this is my home
Come on
Pick me up lets go
Cause only can stop me now
Your the one
The only one coming to the town

These buildings
Are sprawling
On dark roads
They're crawling
The sights and sounds so thrilling
This city is killing

They've caused that bright light pound
So many faces in the crowd
Twin towers break the sky
The concrete roads, dream will die

Tell me this is my home
Come on
Pick me up lets go
Cause only you can stop me now
Your the one the only one coming to the town

Tell me this is my home
Come on
Pick me up lets go
Cause only you can stop me now
Your the one the only one coming to the town

So come on to the town

Come on to the town

Come on to the town
