Enforcer

Don't you speak about evil
Don't you speak of its sign
When you look in the mirror
Do you see evil, dark divine
Faint reflections
Something that's been heard
A presence is here from another world

Demon
Awakening evil
Demon
Demon
The angel of death is nigh
Demon
Angel of death is coming nigh!

Do you believe in a heaven?
Something ancient old
Are you afraid of the darkness?
Does it make your blood run cold
Now is there something behind you
Reaching out to you
That something is here and your time is due
