

# Keep the Flame Alive

Enforcer

A lover's heat, a lover's fire  
That taste of bitter sweet  
I'll keep fighting sleep at night  
To find that pounding beat  
Keep it high, keep it free  
Feel it come alive  
Lover's fire will fight the night  
To feed the hunger's drive

Blackened faith, love and hate  
Walk beside you  
To find you way through heaven's gate  
With the devil by your side

Tonight  
I'll be waiting for you  
'Cause tonight  
I want to hold you in my arms  
And tonight  
I'll be waiting for you  
'Cause tonight  
I want to find my lost desire  
And I keep the flame alive

Never sleep, never hide  
To feed that burning flame  
A greater cause for a greater good  
Is the reason why I came  
I feel high, I feel free  
See me come alive  
I will never leave this life  
Without the hunger's drive

Blackened faith, love and hate  
Walks beside you  
To find you way to heaven's gate  
With the devil by your side

Tonight  
I'll be waiting for you  
'Cause tonight  
I want to hold you in my arms  
And tonight  
I'll be waiting for you  
'Cause tonight  
I want to find my lost desire  
And I keep the flame alive

Keep the flame alive

Tonight  
I'll be waiting for you  
Tonight  
I want to hold you in my arms  
Tonight  
I'll be waiting for you  
Tonight

I want to find my lost desire  
Tonight

Keep the flame alive  
Keep the flame alive  
Keep the flame alive
