

Live For The Night

Enforcer

Up from the dark depths of hell you come to play with my
life

I feel your venomous glance cutting like a knife

Take me away

With your sinister list

Seduce me and I can't resist

We live for the night!

Bewitching my soul, lust for the flesh keeps me awake

Night after night in a daze with my life at stake

Take me away

With your sinister list

Seduce me and I can't resist

We live for the night!
