

# No Tomorrow

Enforcer

Do you feel that the earth is shaking  
Something coming from far  
Like distant foreboding thunder  
Hammering drums of war

Fire and hell  
It's coming alive  
You come into overdrive

No regrets, no tomorrow  
A world set in flames 'til the morning light  
No regrets, no tomorrow  
There's no tomorrow

Do you see that the sky is burning  
Impending blood red sky  
This night we erupt with fire  
Red hot and riding high

Electrical fire  
A violent force  
Rock and roll overdose

No regrets, no tomorrow  
A world set in flames 'til the morning light  
No regrets, no tomorrow  
There's no tomorrow

No regrets, no tomorrow  
A world set in flames 'til the morning light  
No regrets, no tomorrow  
No tomorrow

There's no tomorrow  
Yeah  
There's no, there's no, there's no tomorrow
