

## Walk with Me

Enforcer

In the black, shapes of unknown lineaments  
A fucker of fore coming my way, a spark of the death  
Sun is set, time is for me, the ascent  
Fantastic are the terrors, my cold breath

Deep into that darkness seeing cracks in time for me  
Feel the night's ghost gently peering in at what's to  
be  
Dreadful are the actions, mercilessly begun  
As I remain, I am touched by the devilish one  
Fire, walk with me!

Feel the terrors  
The reek of virtue's sour smell  
There are ways to make it through  
There are ways for me and you  
Grasp of darkness dwells  
Time has come for me  
To meet my shadow self

Resembling nothing I've ever seen before  
Standing tall among giants yet forlorn  
The biting cold of this crimson nightmare's grip  
Is tearing at my strength, my soul will rip

The dweller on the threshold time reflection of the  
soil  
Slipping into the deadness of this mighty black hole  
Final chance now to set my spirit free  
I say "fire, fire, fire walk with me!"

Now I've come to terms that fear is the key  
A dance now in the moonlight the circle of sycamore  
trees

"Through the darkness of future past the magician longs  
to see  
One chants out between two worlds 'Fire walk with me!'"
