

# White Lights in the USA

Enforcer

You can't turn away from me  
I've got you in my might  
Running like a freight train free  
In the dead of the night

You're going to a show  
Rock'n'roll show  
Screaming for freedom, freedom

White lights (White lights)  
White lights to getaway  
Got white lights (White lights)  
White lights in the USA

Out from darkness into light  
We're going from town to town  
Nothing that can stop you now  
No thing can turn you down

Rollin' to the show  
Heavy metal show  
We hear you screaming, screaming

White lights (White lights)  
White lights to getaway  
Got white lights (White lights)  
White lights in the USA (White lights)  
White lights to getaway  
Got white lights (White lights)  
White lights in the USA

White lights  
Bright cities  
White lights to getaway  
White lights  
Night cities  
White lights in the USA

White lights (White lights)  
White lights to getaway  
Just white lights (White lights)  
White lights in the USA  
White lights, white lights  
White lights in the USA  
White lights (White lights)  
White lights to getaway  
You got white lights (White lights)  
White lights in the USA

(White lights)  
(White lights)  
(White lights)
