

# Gallows Tree

Engel

I'm dreaming it's surreal  
A darkness appeal  
A journey in disguise  
(Gallows tree, nothing is what it seems)

A life with not living  
A death note you're giving  
Keep saying your goodbye  
(I've got nothing left ...)

Forgotten, be left alone  
No one ever guess today  
Reborned to the unknown  
Shadows drag you far away  
Forgotten, be left alone  
Gallows set a side to live  
The black clouds they hunts you down  
Make you wish away the pain

I'm certain, I know  
It's coming, below  
It's send a life inside  
(...collide)  
The worlds collide  
On open play  
The rest in time

The darkness unveil me  
A sickness ablinds me  
You sad "no way" and smile  
(.....)

Forgotten, be left alone  
No one ever guess today  
Reborned to the unknown  
Shadows drag you far away  
Forgotten, be left alone  
Gallows set a side to live  
The black clouds they hunts you down  
Make you wish away the pain
