Engel

Behind my deepest thoughts you're still inside my mind

I am the reason you're still alive
Fall back to safe zones, there I'll be waiting

Can you be grateful? In hope of a better day

No need to worry, I'll drag you down
Still in a hurry, make haste your turn to die

Thoughts of redemption, goes through my mind
Scratch the surface, see what I've found

Can you be grateful? In hope of a better day

No need to worry, I'll drag you down
Still in a hurry, make haste your turn to die
No need to worry, I'll drag you down
Still in a hurry, make haste your turn to die

I could never walk alone, till the end of time
I could never hurt your home, there I stay strong

No need to worry, I'll drag you down
Still in a hurry, make haste your turn to die
No need to worry, I'll drag you down
Still in a hurry, make haste your turn to die
