

Your shadow haunts you

Engel

Break free from all these chains
I will not take the blame
Time is not on our side
A lesson learned in life

A race in life without a finish line
The scar is growing inside us

Break free from all these chains
I will not take the blame
Time is not on our side
A lesson learned in life

The bitter taste is here to stay
Your shadow haunts you
You'd better start to realise
You're not eternal

It's time to analyse
It's time to bring back life

Break free from all these chains
I will not take the blame
Time is not on our side
A lesson learned in life

You are struggling against yourself
When you had a choice in the end

Break free from all these chains
I will not take the blame
Time is not on our side
A lesson learned in life
