

A Christmas for the Family

Engelbert Humperdinck

Christmas comes but once a year
Been waiting now the time is near
Everyone from far and wide
Will come and celebrate this night

When the fireplace is crackling
And the snow is on the ground
We begin to see the joy and smiles
Of our loved ones all around
I can hear the sleigh bells ringing
In the distance loud and clear
There's a sound like angels singing
Santa must be very near

What a jolly holiday
We fill our hearts and say
It's Christmas for the family
All we need is you and me
To sing around the tree
It's the best night of the year

It's Christmas for the ages
Come to celebrate this night
We are joined by friends and family
In the glow of candlelight

What a jolly holiday
We fill our hearts and say
It's Christmas for the family
All we need is you and me
To sing around the tree
It's the best night of the year

The sound of laughter in the air
The Christmas tree with gifts to spare
The starry lights that twinkle in our eyes
With generations old and young
The children playing, having fun
The greatest gift is being here as one
What a jolly holiday
We fill our hearts and say
It's Christmas for the family
All we need is you and me
To sing around the tree
It's the best night of the year

What a jolly holiday
We fill our hearts and say
It's Christmas for the family
All we need is you and me
To sing around the tree
It's the best night of the year

Is everyone awake
Is everyone awake
Is everyone awake it's Christmas
Is everyone awake

Is everyone awake
Is everyone awake it's Christmas

Is everyone awake
Is everyone awake
Is everyone awake it's Christmas
Is everyone awake
Is everyone awake
Is everyone awake it's Christmas
