

# Absolute Beginner

Engelbert Humperdinck

It's like taking that first breath or taking that first step  
Dreaming that first dream finding out my voice can sing  
Like a first heartbeat or opening up my eyes  
Seeing the sunrise light an impossibly blue sky

It's like I'm waking up to a new brighter day  
And I will never understand how you got me feeling this way

Cause I've been around the world  
Pulled down a million stars  
I've seen the dark side of the moon  
I've been the heartbreaker  
I've been the heartbroken  
So how can it be when I'm with you  
I'm an absolute beginner

I've held a hand before some kind of love I've sworn  
Then I slowly watched those words lose their shine  
But never felt this kind of wonder never felt it pull me under  
And somehow lift me up at the same time

It's like I'm waking up to a new brighter day  
And I will never understand how you got me feeling this way

Cause I've been around the world  
Pulled down a million stars  
I've seen the dark side of the moon  
I've been the heartbreaker  
I've been the heartbroken  
So how can it be when I'm with you  
I'm an absolute beginner

It's like I'm waking up to a new brighter day  
And I will never understand how you got me feeling this way

Cause I've been around the world  
Pulled down a million stars  
I've seen the dark side of the moon  
I've been the heartbreaker  
I've been the heartbroken  
So what I say should not be true  
I'm an absolute beginner...  
With you
