

Our England

Engelbert Humperdinck

God bless the green fields of our England
This emerald rising from the sea
Our thanks to her who gave us freedom
Crown of her glorious history

Be true and faithful to our England
And she'll fulfill our destiny
A brotherhood of love and friendship
Our England proud and free

Though nations there may be
Mightier than we
Together - we'll be strong forever

And to the heroes of our England
God save their cherished memories
We will remember them for keeping
Our England proud and free

Our England proud and free
Our England proud and free
