

Our Time

Engelbert Humperdinck

Wild in the night
When I'm holding your body so tight
Love feels so right
Are we kissing and saying goodbye?
There'll come a time
I don't have to lie about you
The day I won't have to live without you
You'll be mine
We'll be free
To be together, don't you know

It's our time
The time of our lives
It may never come again
But I'll love you to the end of all time
'Cause baby this is our time

Please, let me dance
As I waited so long for the chance
Now is the time
For the brim of our love to unwind
Waited so long for this love to come together
I've been strong, I can hide my love forever
Don't deny this feeling of pleasure
'Cause it may never come again

It's our time
The time of our lives
And there's nothing quite as sweet
As two lovers when they leave for the first time
And baby this is our time
The time of our lives
It may never come again
But I'll love you to the end of all time
'Cause baby this is our time

I used to hold my head up high
But blindsided [?]
And now I got you by my side
Together I know we can make it

Our time
The time of our lives
It may never come again
'Cause I'll love you to the end of all time
'Cause baby this is our time
Yeah the time of our lives
And there's nothing quite as sweet
As two lovers when they leave for the first time
Baby, this is our time
