

## Songs We Sang Together

Engelbert Humperdinck

Sometimes when it's late and I can't sleep girl, I can't let go  
I climb the stairs to my studio  
And I find the lyrics that you left me read every one  
Play the old recordings we used to love

Oh I try to forget but I can't  
And honey when I hear your voice  
The memories fly back

And every word of every line  
Of every song we sang together  
Will fill my mind forever  
With a warmth that once was ours  
And every word of every line  
Of every song we sang would always  
Fill these rooms and hallways  
With a magic of those hours

You know when I've seen the midnight movies a million times  
Turned out the lamp light pulled down the blinds  
I get the broken down piano and pretty soon  
You sing beside me a little out of tune

Oh I try to forget but I can't  
And honey when I hear your voice  
The memories fly back

And every word of every line  
Of every song we sang together  
Will fill my mind forever  
With a warmth that once was ours  
And every word of every line  
Of every song we sang would always  
Fill these rooms and hallways  
With a magic of those hours

And every word of every line  
Of every song we sang together  
Will fill my mind forever  
With a warmth that once was ours  
...
