

## Step Into My Life

Engelbert Humperdinck

Step into my life, I cannot find  
Something is missing, I'm losing my mind  
All I can say and all I can do  
That someone I'm missing is you

Step into my life, I don't wanna be  
The soul survivor of my memory  
Nobody knows what I'm going through  
Say that you're missing me too

You came into my life  
Then walked away  
How can I tell you that  
The one thing that I'm yearning for is loving you forever

Step into my life, I want you to say  
"I need to love and hold you in every way"  
All I can say and all I can do  
Is hope that my dream will come true

You left me lonely times  
I need your heartbeat close to mine  
Destiny, destiny be kind  
Say she will wait for me again

You came into my life  
Then walked away  
How can I tell you that  
The one thing that I'm yearning for is loving you forever

Step into my life, I don't wanna be  
The soul survivor of my memory  
Nobody knows what I'm going through  
Hope that my dream will come true
