

## There's something wrong in paradise

Engelbert Humperdinck

Take a moment to consider  
The way you feel right now  
Something's happen - something's different  
And it's changing us somehow  
There's a real bad feeling  
In the air tonight  
And a cool wind is blowing  
And it's just isn't right

There's something wrong in our paradise  
There's something wrong - did we pay the prize  
Did we have too much - too soon to let the feelings grow  
There's something wrong in our paradise  
We won't last long if we're telling lies  
Gotta fight for it - tonight we gonna hold it right

Is there something you're not saying  
In the corner of your mind  
Maybe someone made you happy  
They say new love is so blind  
I would hate to lose you  
And I can't deny  
There is nothing I won't do  
To keep this love alive

There's something wrong in our paradise  
There's something wrong - did we pay the prize  
Did we have too much - too soon to let the feelings grow  
There's something wrong in our paradise  
We won't last long if we're telling lies  
Gotta fight for it - tonight we gonna hold it right

Gonna make it tonight
